Hello Sirs,

I write this to you in support of moving the open captioned films hosted at Schererville Showplace 16 to Hobart Showplace 12. I am an ASL student at (school, city/state). As a student, I am required to meet deaf people; personally I would like to meet deaf people so I can converse with them in their language and learn their culture. Schererville is not easily accessible because (the drive is too far, the days of the week are not workable as I am a student, other opinions or statements).

I have seen an open caption movie when I can and I do appreciate the efforts for Kerasotes to bring this to the Northwest Indiana area. (If you haven't, please state that you do appreciate the opportunity provided by Kerasotes and would take advantage of it if it was located in Hobart or what statement you prefer to state). Thank you.

Sincerely,
